

# SCREW CAM CLAMP DOUBLE EYE (SDC-S)

## TWO YEAR WARRANTY

## TECHNICAL SHEET

This screw clamp is for all-purpose use, such as raising and lowering, lateral (horizontal) pulling and turning-over lifting.

- The lightweight and compact clamp can be used for a variety of operations such as lifting, hanging, turning over, and pulling of work pieces.
- A positive clamping force is generated with the screw and the round cams (special spring-loaded) at no load and even when vibrations occur during operation.
- The main body is made from the die-forging of special alloy steels in one piece, which is optimally tempered for maximum strength and durability.
- High-frequency quenching of special alloy steels gives greater durability to the cam.
- The main body is a baked-on finished.

## TECHNICAL SPECS

MODEL	Capacity (Tons)	Dimensions (mm)												Weight [kg]
		Jaw opening	L	L2	H	H1	H2	D1	D2	T1	T2	S
