

RATCHET PULLER *MINI* SERIES **XT**

VULCAN'S XT SERIES *MINI* RATCHET PULLER

A technologically advanced, compact,
light and sturdy lifting equipment

1/4T and 1/2T capacities

2-year warranty

ANSI B30.21

Complete nameplate with serial number

150% test load

Testing and inspection
certificate included

NEW!

**With its 1.5kg weight, it's the world's smallest lever hoist...
and most importantly, the sturdiest in its category (XPU0,25T)**

Easy to handle

- Top and bottom hooks rotate 360 degrees
- Ultra-short 360-degree handle rotation

Safe

- Ultra-robust fork-type cast-steel safety latch

Weatherproof

- Zinc-plated grade 100 chain

5-gear and 2-catch **gear reduction system** for superior performance. Most 250 kg ratchet pullers only use 2 gears and 1 catch.

4 links load sprocket for better performance and stability.

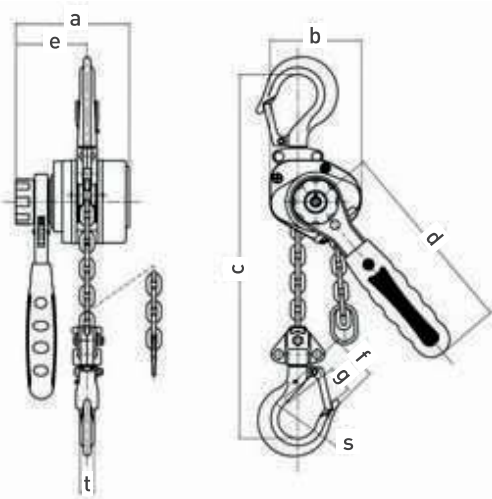

Main parts and **gears** are made of **heat-treated alloy steel** and **cover** made of **aluminium alloy steel**.

Moving parts coated with **high-performance** Li-MoS₂ (molybdenum disulfite) **grease** for optimal use in high & low temperature environments.

RATCHET PULLER **MINI** SERIES **XT**

MODEL	Capacity	Safe working load	Test load 150 %	Standard lift	No. of chain falls	Pulling effort	Net weight	Chain
	(tons)	lb	lb	ft		N	lb	mm
